### **MCCCE Offers Emergency Funds**

The McCracken County Community Career Endowment, Inc. (MCCCE) is pleased to announce the availability of Emergency Funds for full- and part-time students enrolled at a post secondary educational facility. Awards of \$250 will be issued to those demonstrating a need for the assistance, along with a description of their educational and career aspirations and how the assistance will help them accomplish their goals.

Emergency assistance applications are available on the MCCCE's Web site, [mccce.org](http://mccce.org), or by calling Executive Director Judy Calhoun.

MCCCE is dedicated to developing a more diverse and qualified job candidate pool to enhance the economic success of the McCracken County community. The source of the funding derives from an endowment established by the late Fred Paxton and his wife, Peggy. It is administered by the Community Foundation of West Kentucky.
